

VECIMS 2012

2012 IEEE International Conference on Virtual Environments, Human-Computer Interfaces and Measurement Systems

Tianjin, China, 2-4 July 2012

Sponsored by the IEEE Instrumentation and Measurement Society

Honorary Chairs

John C.Y. Leong, Open University of Hong Kong, China

Mel Siegel, Carnegie Mellon University, USA

Fernando Lopez Pena, Universidade da Coruna, Spain

General Co-Chairs

Dong Ming, Tianjin University, China

Yong Hu, The University of Hong Kong, China

Shervin Shirmohammadi, University of Ottawa, Canada

Stefano Ferrari, Università degli Studi di Milano, Italy

Program Co-Chairs

Guizhi Xu, Hebei University of Technology, China

Jiying Zhao, University of Ottawa, Canada

Richard J. Duro, Universidade da Coruna, Spain

Publicity Chair

Wei Yin, Oklahoma State University, USA

Special Session Co-Chairs

Yuanming Feng, Tianjin University, China

Lei Xing, Stanford University, USA

Xin-Hua Hu, East Carolina University, USA

Jun Deng, Yale University, USA

Jianrong Dai, CAMS Cancer Institute, China

Local Arrangement Chair

Hongzhi Qi, Tianjin University, China

Steering Committee

Emil M. Petriu, University of Ottawa, Canada

Vincenzo Piuri, University of Milan, Italy

Mel Siegel, CMU, USA

Peter Wide, University of Orebro, Sweden

Web Site

VECIMS 2012 is held in conjunction with the 2012 IEEE International Conference on Computational Intelligence in Measurement Systems and Applications (Tianjin, China, 2-4 July 2012).

VECIMS 2012 is an interdisciplinary symposium that intends to bring a methodical instrumentation and measurement perspective to the theory and practice of virtual and virtualized environments, and human-computer interfaces by focusing on the quantitative and metrological aspect of these technologies and their interactive applications in telerobotics, telemedicine, remote control, engineering design, environment sensing and monitoring, training, education, arts, and computer games.

Papers are solicited on all aspects of virtual environments and human-computer interaction technologies for measurement systems and the related applications, from the points of view of both theory and practice. This includes but is not limited to multimodal (visual, haptic, audio, etc) virtual environments, sensors and displays, perception and psychophysics, object modeling, model validation, multi-sensor data fusion, soft computing techniques, human-computer interaction, augmented and virtualized reality, virtual reality languages, APIs, RTIs, collaborative distributed virtual environments, model-based telecommunications and telecontrol, calibration, standards, implementation technologies, and applications.

**SUBMIT EXTENDED ABSTRACTS OR DRAFT PAPERS
BY 15 MARCH 2012**

Details for the submission and all information concerning the symposium can be found at the symposium web site at <http://vecims.ieee-ims.org/>. Acceptance/rejection will be emailed by 30 April 2012. The final manuscript is due by 1 June 2012. Submission implies willingness to register at the conference, pay the registration fee and present the paper in person. Papers will be included in the proceedings only if at least one author will register and pay the registration fee by 1 June 2012 (member and non-member fees only are acceptable to this purpose) - no exceptions. Papers included in the proceedings will also be included in the IEEE Xplore digital library only if the paper will be presented in person at the conference by one of the authors. If an author covers more than one paper with her/his registration to guarantee inclusion in the proceedings, she/he must pay a 50 US\$ surcharge for each paper in excess of one.
